Our blanket collection was born out of love for children, craftsmanship and high quality eco friendly products.

Our new baby and kids blankets are the result of the fruitful collaboration between Littlephant's Camilla Lundsten and Swedish fellow maker Klippan Yllefabrik. Together we have developed a wonderful collection of the softest organic cotton, eco wool and lambs wool blankets for the youngest ones.

"The love for craftsmanship and natural materials, joyful design and clever function brought us together" Camilla says.

This is a collection that can be used both at home and when on the go. All the materials breath and are of the highest quality, from the weave to the beautiful seams.

The design and color scale is typical for Littlephants playful, yet sophisticated universe, inspired by nature. From sage to pine tree green, soft dusty pink and blue, natural sandstone to warm mustard yellow.

WALLPAPER

Our patterns and style, created with a comfortable and natural colourscale, connect our Scandinavian heritage and roots with contemporary living.

The Wallpaper collection is a collaboration with our beloved partner the Swedish Wallpaper factory Ulricehamns Tapetfabrik and their talented colour masters and printers.

The patterns are drawn by hand by Camilla Lundsten and together we have developed the best way to make a durable and long lasting collection, in tune with nature. Both for the sake of mankind, our planet and for the love of your home.

The paper we use for our wallpapers is non-woven. It is a mix of FSC (Forest Stewardship Council) certified paper from responsible sources and synthetic fibres from recycled pet-bottles, which today is the best way to make a durable and long lasting product. Both for the sake of mankind and nature. It is ÖKO-Tex standardized with a certification of 100.

The print colours used for our wallpaper production are all water based and toxic free. Surplus colours are re-used and all waste from our production can be re-cycled.
