DESIGN, COLORS AND CRAFTSMANSHIP
FROM SCANDINAVIA

NEWS IN OUR COLLECTION

Nature always inspire me and to live at home in tune with nature makes it a truly comfortable place to be. The symbiosis between organic shapes and the richness of colors creates a harmonious living.

Let me introduce the new prints. Flora with a whimsical flowery personality and Karin, inspired by the grid from traditional braided birch bark baskets. The color scale goes from deep green to clay beige, dusty blue and mustard yellow, sometimes vibrant and other times soft but always natural.

Everything is printed on beautiful Linen, consciously made with great craftsmanship. The new fabrics by the meter and cushion covers accomplish our range of wallpaper and home textiles.

For me as a designer it's a pleasure to work with Swedish traditions, where nature has always been a part of everything we do. From my design heritage to honest production, natural materials and contemporary living.

I hope you will enjoy my pieces as a creative foundation for you to express yourself with, to make your habitat comfortable and colorful.

Camilla Lundsten

In our world of textiles, cushions, wallpaper, lampshades, porcelain and organic toys everything is drawn by hand and designed to marry function with form, to make your space enjoyable and comfortable to live in.

We honour our traditions and craftsmanship and merge them with a contemporary world and techniques, while caring for our nature and fellow humans.

We design our products in Stockholm where we are based and make them either in our studio in Stockholm or together with local, talented craftsmen mainly in Sweden and Northern Europe.

FLORA

Flora have a nice rythm and flow, with generous flowers climbing and swirling making it a comfortable organic feature in a room. The color scale goes from deep green to clay beige and dusty blue, sometimes vibrant and other times soft but always natural.

KARIN

Karin is inspired by the grid from traditional Swedish braided birch bark baskets. This soft checked graphic print is a great companion to balance other organic prints. The color scale goes from deep green to clay beige, dusty blue and mustard yellow, sometimes vibrant and other times soft but always natural.

SAKURA SPRING

With poetic beauty, cherry blossom petals fill the air at springtime like snow flakes swirling in the wind. Drawn by hand this print is a homage to the loveliest and most beautiful time of the year, when bulbs are are bursting into bloom and then letting go of all its richness to evolve. The process of drawing the petals is a transformation from the hand and mind to finding the simplicity and rythm of dots in an organized chaos, just like in nature.

Littlephant®

The dusty blue color scale is an essential part of Littlephant, stylish, comfortable and harmonious.

Create with our fabrics and wallpaper to make your home your story. The new print Karin and our smaller version Gustav, is a classic check with a contemporary twist, bridging between the past and the future.

The print Karin is a bigger dimension of the smaller Gustav, easily matched in contemporary and traditional spaces.

WELCOME TO THE STUDIO

Take a glimpse into our space where we work and create products with great craftsmanship and natural materials, heart and soul.

We are a Swedish brand, creative studio and product makers, driven by the passion to make your space feel at home and your children and their play more creative.

My Scandinavian heritage and roots is inspiring us in everything we do, from my design and world of patterns to our sustainable way of making things and the way we live our lives. We work with only natural and honest materials, clever functions and for the love of genuine craftsmanship and high quality that last.

I hope me and my team can inspire you with how we do things. That what we make will become a part of your life and your home, creating comfort, creativity and cherished memories through out life.

With all our love,
Camilla & the team
